Kiran Zahid

AI & Robotics Developer

Punjab, Pakistan | kiranzahid188@gmail.com
Portfolio | LinkedIn | GitHub | Fiverr | Upwork

Professional summary

Emerging technology professional focused on AI automation, n8n, Zapier, AI tools and LLMs, workflow automation, and robotics. Building practical portfolio projects while pursuing the Modern Robotics Specialization from Northwestern University. Brings professional workplace experience from teaching, combined with hands-on learning in AI automation, robotics, and software testing.

Core skills

- AI automation and workflow automation (n8n, Zapier)
- AI tools and large language models (LLMs)
- Robotics and automation
- Manual functional testing: test-case execution, comparing expected and actual results, documenting outcomes

Projects

AI Lead Qualification & CRM Automation
Automated workflow that cleans inbound web-form leads, scores them with an AI model as Hot, Warm, or Cold, logs them to Google Sheets, emails the lead, and notifies sales by priority, with error alerts.

AI Customer Support Email Agent
Automated workflow that receives customer emails from Gmail, cleans and validates them, uses an AI support agent, routes cases to human review or automatic reply, and logs outcomes to Google Sheets.

AQSA POS System Testing
Manual functional testing of a point-of-sale system: executing test cases, comparing expected and actual results, reporting issues, and documenting outcomes.

CKD Screening AI (in progress)
Demo exploring AI support for chronic kidney disease screening and early risk assessment. A demonstration project, not a diagnostic tool.

Fire Chaser Extinguisher Robot (in progress)
Robotics project built around a fire-detection and fire-response concept.

Experience

Teacher, Science Valley October 2025 to 2026

- Built practical workplace experience through teaching, communication, organization, and time management.
- Worked responsibly with students and handled day-to-day professional duties.

Teacher, The Educators 6 months

- Developed professional communication, responsibility, organization, and classroom-management skills.
- Worked directly with students in a structured and professional learning environment.

Intern, AQSA IT Solutions

- Internship connected to practical IT work and software quality.

Education

Intermediate (ICS – Physics) Completed 2025

Pakistan Girls College Dina

Courses and training

- Modern Robotics Specialization, Northwestern University (currently pursuing)
- AI Mastery, AQSA IT Solutions (completed)
- Elements of AI, University of Helsinki (completed)
- AI Elements, Riphah University (completed)

Languages

English (fluent), Urdu (native), French (basic)

Availability

Part-time, night shifts, and weekends.
